MY PROJECTS

Lendsqr – Complex User Management Lending System built with TypeScript, React, Next.js, SCSS. It manages 100 JSON generated mock users' data. Includes Jest Testing, pagination, authentication, filtering, a pop-up for user actions.

MystoryBoutique – Ongoing e-commerce boutique built with Typescript, React, Next.js, Firebase for backend data, TailwindCSS, Swiper. Allows users browse dresses, make a wish list, add orders to cart, checkout.

Movieverse – Movie-themed website built with ReactJs, Next.js, TailwindCSS, TMDB API. Users can catch up on trending movies, shows, search for info on any movie.

PeerStakes – ReactJs betting site integrating Stripe payment processor, google OAuth, authentication with Context API and local storage, Framer motion.

Portfolio website – built with React/Next.js, Context API, Framer Motion, Splide, a backend Forms service: Formspark.

WalletNode – crypto app built with ReactJs, React Router, live chat software (tawk) to facilitate real-time customer support.

Delicious – food recipe site built with ReactJs, Spoonacular API, Framer, Splide allowing users explore food recipes.

FoodOnline – ReactJs ecommerce restaurant allowing users place orders and add to cart. My first ReactJS site shows my context API and state management familiarity

Advt – My first full website built with pure HTML, CSS and Javascript. Fully responsive across devices

Acme Rockets - Basic business website built with HTML and TailwindCSS, incorporating dark/light themes.
